

ECVP2012 Program

Sunday 2 September 2012		Monday 3 September 2012			Tuesday 4 September 2012			Wednesday 5 September 2012			Thursday 6 September 2012						
8.00	Emperador Infanta y Reina ECVP Registration		Emperador Infanta y Reina Hall ECVP Registration			Emperador Infanta y Reina Hall ECVP Registration			Emperador Infanta y Reina Hall ECVP Registration			Emperador Infanta y Reina Hall ECVP Registration			8.00		
9.00			Symposium A Vision For Open Science	Talks 1 3D perception I	Talks 2 Colour perception	Talks 1 3D perception II	Talks 2 Attention I	Symposium Alpha revisited: The role of neural oscillations in visual perception and selective attention	Talks 1 Attention II	Talks 2 Adaptation II	Symposium Moving Image - Moving Eyes: Active Vision in the Real World	Talks 1 Attention III	Talks 2 Models and Theory	Talks 3 Art and Vision	9.00		
10.00			Coffee and posters	3D perception Illusions	Colour perception	Coffee and posters	Attention	Coffee and posters	Adaptation fMRI	Coffee and posters	Ageing and development Organization, Learning and Action	Coffee and posters	Models and Theory Art and vision Haptics Decision making	10.00			
11.00			From VSAC to ECVP Lecture: Stephen Grossberg Cortical Dynamics in Vision & Art		Lunch break			Lunch break			Lunch break			Lunch break			11.00
12.00			Symposium Computational Approaches to Visual Illusion	Talks 3 Face processing	Talks 4 Motion processing	Symposium Colour Cognition	Talks 3 Eye movements	Talks 4 Crowding	Talks 3 Consciousness	Talks 4 Brightness and Lightness	Symposium Visual, motor & attentional aspects of dyslexia	Talks 4 Cognition	Talks 5 Haptics	Talks 6 EEG & Electrophysiology	12.00		
13.00	ECVP 2012 Opening		Coffee and posters			Coffee and posters			Coffee and posters			ECVP 2012 Closing			13.00		
14.00	Symposium 100 years of good Gestalt: new vistas		Symposium Space, colour, natural vision and conscious robots		Face processing Motion processing Applied vision Emotions			Eye movements Crowding Clinical vision Learning and memory Encoding and decoding			Brightness and lightness Consciousness Spatial Vision Aftereffects Contours and Contrast Multisensory processing Multistability, Rivalry			ECVP 2012 Closing			14.00
15.00					Rank prize lecture: Giacomo Rizzolatti The mirror mechanism: a neural mechanism to understand others			Talks 5 Adaptation I			Talks 6 Biological motion			Talks 7 Clinical vision			15.00
16.00															16.00		
17.00	Perception lecture: David Burr Constructing stable spatial maps of the world														17.00		
18.00															18.00		
19.00	Welcome Cocktail Villa Mosca		IllusoriaMente Show Time Carlos V						Business meeting and awards						19.00		
20.00									Banquet Dinner Villa Loreto						20.00		
21.00															21.00		
22.00															22.00
